Introduction

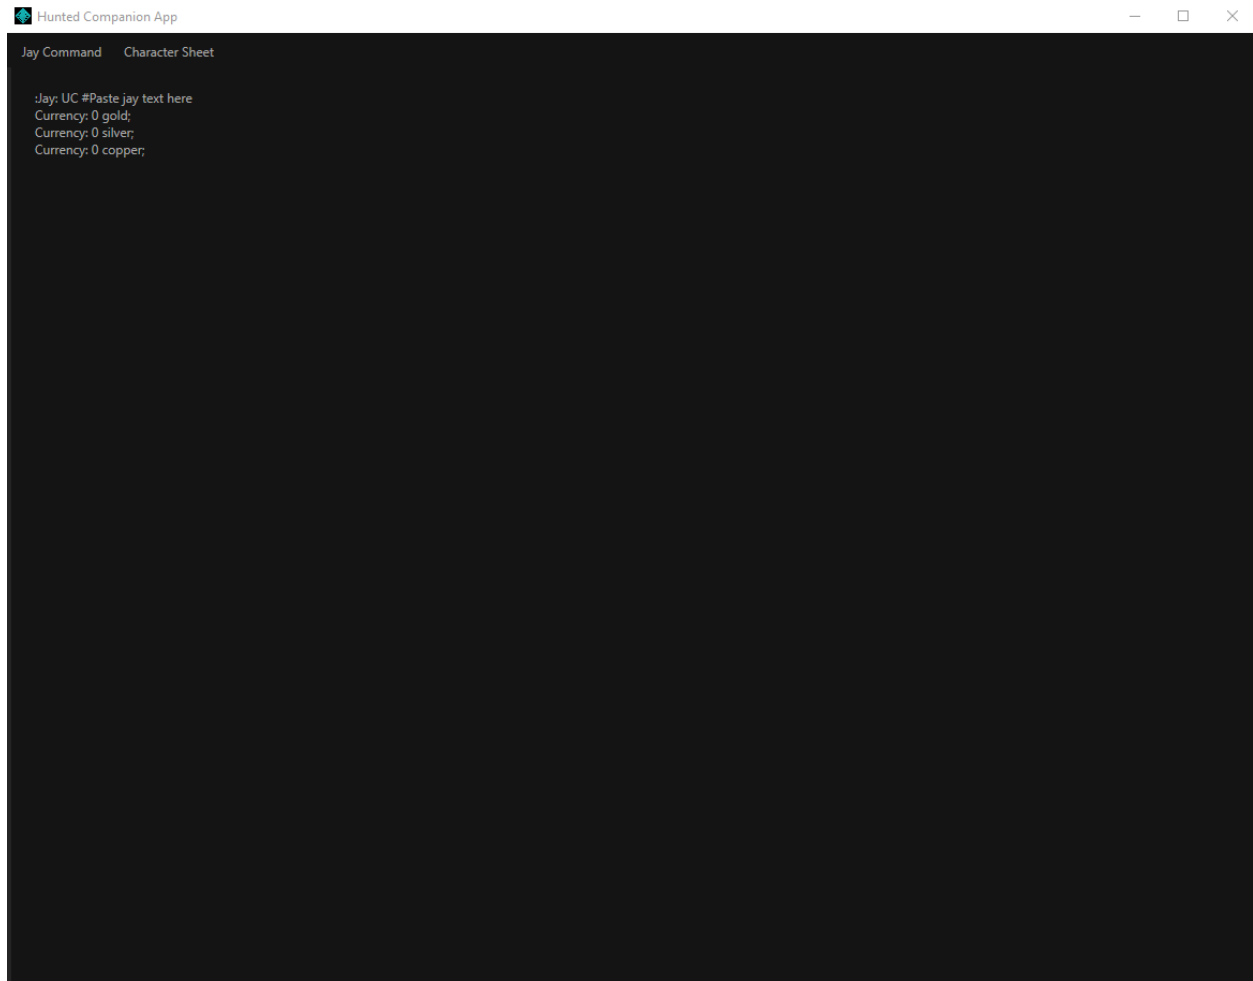

Players, use this companion app for a better experience using Jay bot. It provides a better user interface than manually entering commands for Jay each time you want to update something.

How to install

Open the Hunted Companion App.exe file. The first time you try to open it, your computer will try to 'protect' you from opening a program without a trusted certificate. Click the More Information button and open the program anyway.

Because this is a small project with a small demographic, I'm not going to opt into paying \$100.00 a year to avoid mildly inconveniencing you by getting a trusted certificate. For now anyways.

Opening Screen

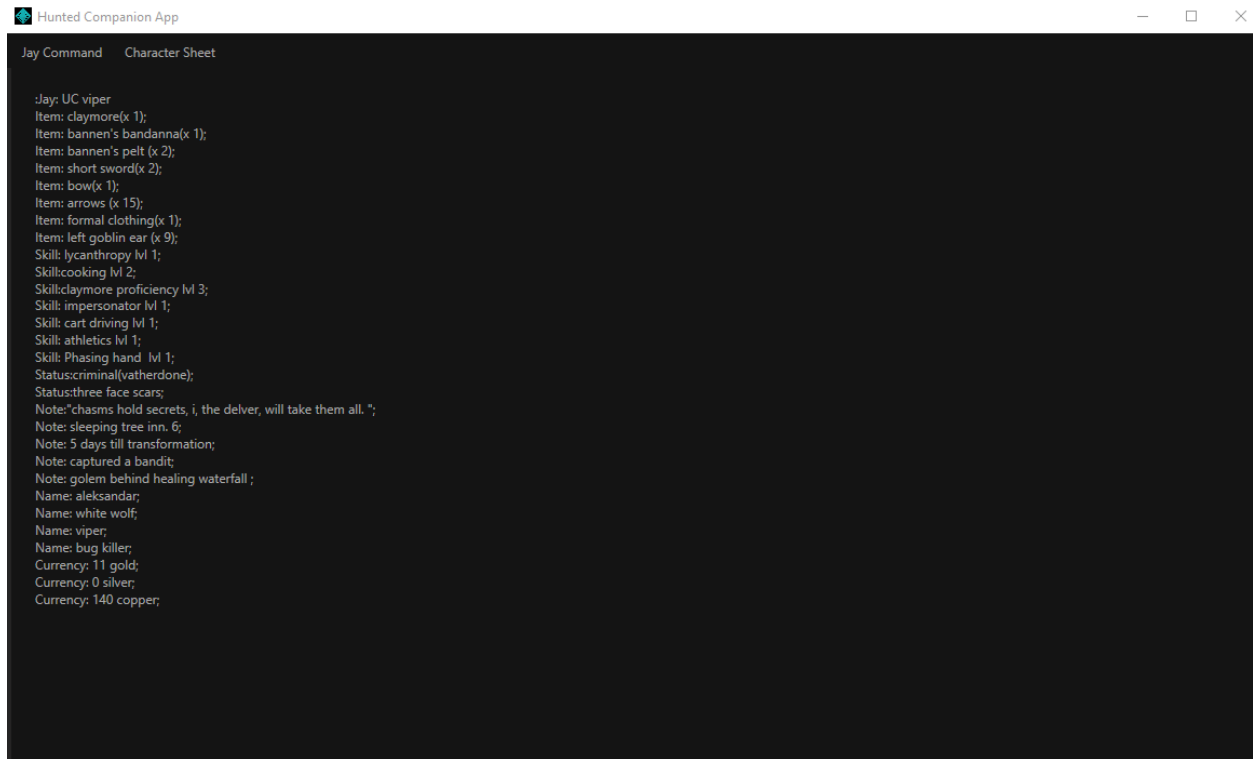

How to use

This companion app has two tabs, Jay Command and Character Sheet.

Jay Command Tab

In this starting tab, copy and paste the results of the CN/Character Notes command over what's in the text box here. This will fill the entries of your character sheet in the next tab.

Character Sheet Tab

Hunted Companion App

Jay Command Character Sheet

Name: viper Player Name:

Gold: 11 Silver: 0 Copper: 140

Items

Name	QTY	
claymore	1	
bannen's bandanna	1	
bannen's pelt	2	
short sword	2	
bow	1	
arrows	15	
formal clothing	1	
left goblin ear	9	

Statuses

Name	Description	
criminal(vatherdone)		
three face scars		

Skills

Name	Level	
lycanthropy	1	
cooking	2	
claymore proficiency	3

athletics	1	
Phasing hand	1	

Notes

Note	
"chasms hold secrets, i, the delver, will take them all. "	
sleeping tree inn. 6	
5 days till transformation	
captured a bandit	
golem behind healing waterfall	

Click on the Character Sheet tab at the top of the page to open the tab. In this tab, you will see all your character's information added to the sheet. You can modify each value of your character sheet by selecting the field you want to modify and editing its contents.

You can add new Items, Statuses, Skills, and Notes by selecting the bottom row of each grid.

Saving changes

When you are finished for the session, you can switch back to the Jay Command tab to see the changes to your character sheet. Copy and paste the UC Command back into #Jays-Room while Jay is online and your character sheet will be saved.
